Program of Graduate Work

Master of Science in Technology Management

Graduate studies in Technology Management are designed to prepare graduates for career advancement and career enhancement in domestic and global technology-intensive businesses and industrial enterprises.

Graduates of the Master of Science in the Technology Management program at Texas A&M University will:

1. evaluate and defend leadership and organizational strategies associated with technology-intensive enterprises,
2. summarize and explain organizational development and strategies common to technology-intensive enterprises,
3. formulate and assemble component ideas in order to successfully execute a project plan, and
4. analyze information in order to formulate effective solutions.

Admission

Admission to a graduate program is granted by the Dean of the Graduate School upon the recommendation of the department. Applicants must meet the following program requirements for admission in addition to meeting the general university requirements.

- Admission Requirements (<https://www.tamuc.edu/programs/technology-management-ms/#tamuc-section-55372>)

Successful completion of the Comprehensive Exam is required of all students.

Note: Individual departments may reserve the right to dismiss from their programs students who, in their judgment, would not meet the professional expectations of the field for which they are training.
