University Purpose

Our History

Texas A&M University-Commerce began as East Texas Normal College in 1889 when founder William Leonidas Mayo opened the doors to a one-building campus in Cooper. After the original campus was destroyed by fire in 1894, Mayo moved the college 16 miles to Commerce, Texas to take advantage of westward railroad lines to Dallas and other parts of the state. His creed, which continues today, was "ceaseless industry, fearless investigation, unfettered thought and unselfish service to others." The State of Texas took over the campus in 1917 and the name was changed to East Texas State Normal College. In 1923, the school was renamed East Texas State Teachers College. The graduate program was added in 1935, and in 1957 the Legislature, recognizing that the purpose of the institution had broadened from teacher education, changed the name to East Texas State College. Following the inauguration of the first doctoral program in 1962, the name was changed once more to East Texas State University in 1965. The name changed to Texas A&M University-Commerce in 1996, when the university joined the Texas A&M system. Today, the University meets the undergraduate, graduate, and professional needs of the citizens of Northeast Texas and beyond through its main campus in Commerce, various off-campus instructional sites, and state-of-the-art distance learning. Its mission is achieved through teaching, scholarship and service activities on its campuses, and in the community and region.

For the past 20 years the University has grown both in stature and student population, expanding its foundations to include agriculture, engineering, music, nursing, and competency based education programs.

Academic Common Market

The Academic Common Market (ACM) is an interstate agreement for sharing academic programs through an exchange of students across state lines. Students have access to selected programs not offered in their home states without having to pay nonresident tuition charges. Each of the participating states has designated a state coordinator for the program. In addition, each institution that has one or more academic programs in the ACM has named an institutional coordinator as contact person for that institution. The application can be found online at the Texas Higher Education Coordinating Board website. Contact the Office of Academic Technology for additional information.

Federation of North Texas Area Universities

The Federation of North Texas Area Universities, created by the Texas Higher Education Coordinating Board, is a consortium composed of Texas A&M University-Commerce, Texas Woman's University, and the University of North Texas. The Federation is designed to strengthen the resources of higher education in north central Texas through inter-institutional cooperation in graduate research and instruction. To this end, the Federation universities offer joint educational opportunities to their students in numerous program areas with some universities authorized to grant degrees and others authorized to provide support services for the degree programs. The following degrees are awarded through the Federation of North Texas Area Universities:

The graduate student registers and pays tuition and fees at the home institution and may retain any fellowship or financial assistance awarded by it. Space must be readily available, and the instructor or laboratory director of the proposed work must consent to the arrangement. In addition, approval must be given by the graduate dean of each institution.
